
a One protein, two questions
AKT1
activates 72
inhibits 39
usual: activates
AKT1 → partner A
truth: stimulates
habit agrees
AKT1 → partner B
truth: inhibits
habit misleads
Both partners matched on number of supporting publications (median 3 vs 3, P = 0.91).
The protein is its own control.
b Design
true answer
inhibits
stimulates
stimulates
inhibits
protein usually
70
exception
70
usual
38
usual
38
exception
Answers balanced 50/50, so guessing and following the habit both score 50%.
c Matched on evidence
usual
exception
Mann–Whitney
P = 0.91
